ISSUE: 2  
PAGE 1

### IN THIS MONTHS ISSUE

**IN BRIEF**  
**WEBSITE UPDATES**  
**FEATURED PRODUCTS**  
**NEW IN STOCK**  
**GALLERY**

### IN BRIEF

Where have we been????!! I know, I know, what's been happening with the newsletters. You're not the only ones that have been asking us, even our webmasters, who finalise the newsletter and send it out, have been hounding us.

Well, in a good way, we have had a busy start to the year, that has seen us not have much time for the newsletter, which is good, but this is meant to be a monthly newsletter, so we will do our best this year to pick it all up again.

So in this issue, our second this year we have some exciting news and announcements to make.

Looking forward to doing some great modelling and business together.

Glen Burns

### WEBSITE NEWS

When we first started CMA, one of our main goals was to not make it just our website, but yours as well.

We wanted to build and develop a business and website that you could all take ownership of, and keep coming back for more.

Over the past few years we have made some changes that you have all requested, and will continue to do so.

But to do that, we need to ask you some questions, and we do want and need your feedback and answers. So here goes:

- What changes, improvements would you like to see on the site?
- What products would you like to see in stock, and what would you buy regularly?
- What can we do to help you come back and purchase our products more often?
- And of course, and general feedback you would like to say and suggest.

Next up we have order updates.

As a lot of you order products that are both in and out of stock on the same order we have implemented a system on the site so you can now see the status of your order, and where everything is at.

This will save us all time with emailing and calling customers to update you on the status of the order.

When you log in, your orders will be displayed, and you will be able to see what products have been ordered, have been sent, have been put on hold, this being for items that you ordered that are in stock.

However, these orders will only be displayed from the time you signed on the log in.

Also new will be order emails.

As a small side show of the newsletter, we will be sending out a quick email to all the subscribers advising of when new orders from manufacturers will be made. Hopefully this will give everyone the heads up, and stop people from missing out, and waiting for the next shipment.

As you can see, we have spent a lot of time, and money on upgrading the site, and making it easier and quicker for you and us to process orders. But we won't be stopping here, we have lots of other ideas that we are planning to implement as well.

Also a big thanks goes to Net Mastery, who have designed our site, and done all the work on it from day one. Anyone needing any web or multi media work, don't hesitate to contact them, I can not recommend them highly enough.

Glen

### WEBSITE NEWS

#### 2011 SHOWS

The 2011 show season is just around the corner, and we are really looking forward to it again. The shows for us bring a lot of shenanigans with us and other traders that we travel and stay together with. It's also great catching up with you guys, our loyal customers and also the new ones.

This year we are confirmed for the following shows:

NSW Scale Champs (Illawarra)  
SCALE ACT (Canberra)  
Model Expo (Melbourne)  
QMHE (Brisbane)

#### BOOMERANG MODELS

We are pleased to announce that Boomerang Models in Albury are now an authorised dealer for Tasca. They currently have a good range of Tasca 1/35th Shermans in stock, and will be expanding their stock levels.

Glen

#### STOCKTAKE

Earlier this year we did a complete stock take on all of our products and ranges. All of our stock levels are now up to date and accurate, and we do apologise for letting it get this way.

Glen

#### STOCK DELETION

We are removing some lines from stock, but will be kept as order only, and some items will be permanently deleted. As a result of this, we will be having some sales on over the next few weeks, but you guys get the heads up first here.

##### FRSIN

30% off all in stock items, order only line

##### SCALE LASER SERVICES (SLS)

30% off all in stock items.

Will be permanently deleted.

##### GALAXIE LIMITED

Chevs and trailers \$55 each

##### RMG RESIN

30% off all in stock items,  
may be permanently deleted.

##### MIRAGE

30% in stock items.

This range will be limited from now.

These prices and sales are on the site now, and will slowly be introduced to general sales a few days after this newsletter goes out.

You've been given first chances, so don't miss out!

#### JUNE SUPER SALES

On sale this month, apart from the above we have:

Voyager—10% off everything  
WEM—10% off everything  
WEM paints—\$3.50 each

### NEW PRODUCTS

#### MASTERPIECE MODELS

We are pleased to announce that we have been appointed the EXCLUSIVE distributor for Masterpiece Models for Australia and New Zealand.

Masterpiece are a US based company that manufactures models at a commercial level, and now also for modellers.

Their range of products are manufacturers from resin, etch, foam, plastic etc, and include some very refreshing and new ideas and models.

#### ARTWOX

Artwox is a new company based in Korea that manufacture laser cut wooden decks for ships in 1/350 and 1/700 scales. We are pleased to announce that we are the exclusive distributor of these great products, and with the way they sold out at Melbourne Expo, we will be keeping good stock levels of these.

#### EASTERN BLOCK

We are also pleased to announce that we have the following Eastern Block manufacturers available, and now listed on the site:

Printscale Decals—These decals look quite nice and interesting and we will be stocking them soon

Olimp Models—Some very nice 1/72nd resin aircraft

Modelist—Produce a wide range of aircraft, AFV and ships in all scales

Artmodel—Produce injection moulded 1/72nd aircraft

Glen

## JUNE NEWSLETTER 2011

VOLUME: 3  
ISSUE: 2  
PAGE 3

### ORDERING INFO

We have been posting on the main page/news of the website when we reorder from manufacturers. Sometimes though, I do forget to post these. So keep an eye out on the site regularly to keep up to date on when and what we will be reordering

### NEW RELEASES, GENERAL

We get a constant bombardment of new releases from a lot of manufacturers all the time. We do try and get these uploaded on to the site in a day or two, and also listed on the news page.

To find new releases quickly, keep a constant check on the new releases page as they are also listed there as well as at their respective homes.

### VOYAGER

Voyager have also been quite busy, releasing a number of new AFV photo etch, resin and turned metal sets for both WWII and modern AFV's.

### AIRES, QUICKBOOST, AEROBONUS

Since our last newsletter, yeah yeah, I know, Aires have been quite busy with new releases.

Of note though, is their new range called Aero-bonus. This is a selection of mainly Russian, and some US weapon sets, bombs, missiles, racks, remove before flight tags etc in both 1/32nd and 1/48th scales.

We have the full range in stock, and these are really beautiful, and a must have is you have any Russian aircraft or helicopters in these scales.

### NEW RELEASES

### EASTERN BLOCK NEW RELEASES

A lot of new releases also come from the Eastern Block manufacturers. These being:

Miniart  
Zvezda  
Eastern Express  
Ace  
UM  
Military Wheels and more.

And all of the above have certainly been quite prolific in new releases since the last news letter

### MAINSTREAM KIT RELEASES

We also now have access through several distributors for mainstream kits, and a lot of other kits and accessories that are not listed on the site.

There not listed on the site, as we have several distributors and their stock levels and prices are always changing.

So looking for a new kit or accessory, but its not listed on the site? Give us a call or email, and we will be able to source and price one then and there.

Some of these manufacturers, but certainly not limited to, are:

Trumpeter	Fin molds
Tamiya	Bandai
Fujimi	AFV Club
Hasegawa	
Revell	And much much more
Italeri	
Aber	
Fruilmodel	

### MAINSTREAM KIT RELEASES PT2

As a result of us being able to get these kits, we will also be stocking up on as many as we can, when we can.

You can find what we have in stock under the "New Kits and Accessories" page on the top left hand side of our site.

### COMBO DEALS

We will soon be offering combo deals.

These deals will consist of the kit, and the aftermarket sets to go with it, at a discounted price. We know all too well, that there's nothing worse then wanting to build a kit, but you don't have all of the AM gear to start, so this will help solve that problem.

We will also be offering combo deals on just the AM gear, because you may already have the kit.
